AMAZE ORGANIC GRAPE JUICE

In addition to being a great energy replenisher, grape juice is also a source of nutrients and vitamins, which boosts a better life quality. A ruby red colour of good intensity reveals a typical fruit aroma, reminiscent of ripe red fruits. It's light and tasty. The mouth reveals freshness and liveliness, with a fine and delicate aftertaste, reminiscent of the fruit.

Its health benefits are compared to those of red wine, with the difference of not requiring consumption in moderation. Has a strong role in the nutritional balance in a healthy diet.

BIODYNAMIC PRODUCTS

To understand this composition, it's important to know that biodynamic products are necessarily organic, being even more restrictive regarding pesticides and agricultural inputs. The great differential is the search for harmony between the human, animal, vegetable and mineral kingdoms, enhanced by the stars' influence. Thus, the care starts in the vineyards, respecting the environment; going through the caution with the vines and arriving at the wine-making process, resulting in beverages with more vitality.

ASTRAL BIODYNAMIC GRAPE JUICE

Developed through the premises of vitality, biodiversity and astronomy, Biodynamic products mean the possibility of nourishing themselves with healthy food and full of vital forces and contributing to the preservation of natural resources, biodiversity and still being an agent of transformation for conscious and integrated agriculture.

Its appearance has excellent clarity, with a ruby red colour of medium intensity. Intense and tasty aromas describe its identity, reminiscent of raspberry and grape cream. It's aromatic and memorable, with lively and noticeable acidity, releasing a light palate.
